

meso-relle[®]

Raccordo multiniettore

Needles-syringe connector multinjector

Raccord seringue-aiguilles multiponcteur

Nadel -Spritzen- Verbindung für Mehrfachinjektionen

Conector multiinyector para aguja-jeringa

Instructions for use

The Mesorelle connector enables more than one needle to be used with a single syringe allowing a multiple injection to be made at any one time.

The Mesorelle connector is mounted on the syringe after the latter has been filled.

Next the needles are inserted and any residual air is expelled in the same manner as with a single-needle syringe.

Models available are linear 3, 5 or circular and can accommodate 3, 5, 7 Luer fitting needles.

The material used is special transparent plastic designed for medical purposes and allowing the inner chamber to be checked. Sterility guaranteed if package intact. Products must be stored in a cool and dry place, avoid direct sun light.
