Operating Instructions for Digital Clock/Timer

Please remove the insulation tag from the battery chamber to start operation

CLOCK SET
1. The clock has to be reset after replacing a new battery.
2. Press H button for desired hour and press M button for desired minute. When done, press ST/SP button.

TIMER ALARM (count down)
1. Press H and M button at the same time to reset the timer to zero.
2. Press H button to set hour. Press M button to set minute(s). When done, press ST/SP button to start alarm counting down.
3. Alarm will sound with a loud beep (lasting 60 seconds). Press key to stop the alarm.
4. Maximum Timer Alarm is 19 hours and 59 minutes.

STOP WATCH (count up)
1. Press H and M button at the same time to reset the timer to zero.
2. Press ST/SP button to begin counting.
3. While timer is counting up, press ST/SP button once to pause. Press the ST/SP button again to continue counting up.
4. Maximum stopwatch time is 19 hours and 59 minutes.

* Press H, M, and ST/SP button at the same time to show real time*
